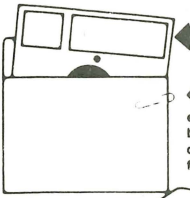
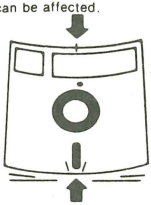
D.O.S. 3.2 or 3.3

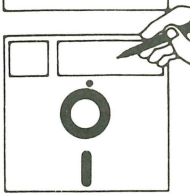


Return the disk to its sleeve after each use.

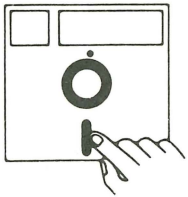
Do not punch edges of disk by use of paper clips or other fasteners.

DO NOT BEND!
If the jacket develops crimps at the edges, rotation of disk can be affected.





Use felt tip pen only. Ball point may dent inner magnetic disk.



Do not touch exposed inner disk. Body oils and other grime can affect performance.

Use the library labels provided or a similar **peel-clean** type only. **Remove previous label before adding new one.** Stacked labels can cause jacket to squeeze inward on spinning inner disk. **Never let label adhesive contact exposed inner disk.**

OPERATING & STORAGE ENVIRONMENT

1.

Store away from strong magnetic fields. (Magnets, large motors or cathode ray tubes)

2.

Avoid storage in direct sunlight or adjacent to radiators, heating or cooling ducts

3. Temperature 50°-125° F (10°-52° C) R.H. 8%-80%
